Title: Dressing Mechanism

SUPPLEMENTAL AMENDMENT G

Box Non-Fee Amendment
Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

AMENDMENTS

In the Claims:

Please amend claim 33 as follows:

Claim 33 (twice amended)

A dressing mechanism comprising: a first section, a second section, and a third section; the first section being coupled to the second section and the second section being coupled to the third section; the second section comprising an elastic material; the first section and the third section each having a first side; and a predetermined portion of the first side including an adhesive located thereon; the first section and the third section being laminated materials comprising a first layer, a second intermediate layer, and a third layer; the third layer including the first side and wherein the second section includes a first margin and a second margin; the first section includes a first channel located between the first layer and the third layer of the first section for receiving the first margin; and the [second] third section includes a second channel located between the first layer and the third layer of the [second] third section for receiving the second margin; the second intermediate layer comprising an adhesive material; the first margin and the second margin respectively including at least one opening; the first margin engaging the second intermediate layer in the first channel and the adhesive material extending through the opening of the first margin; and the second margin engaging the second intermediate layer in the second channel and the adhesive material extending through the opening of the second margin.
